

DFS Middle East assists Canadian Forces Remembrance Day Celebration

Dubai, UAE

When a Remembrance Day wreath sent from Canadian Veterans to soldiers in the field went missing on its journey from Canada to Afghanistan, CTV News in Afghanistan turned to DFS Middle East for help. We received a call from the CTV Producer here in Kandahar asking if we could help them track down a missing wreath for the Remembrance Day ceremony being held here at KAF, says Jeff Train, DFS Operations Manager in Kandahar. A quick call to Dubai and we were on the case.

DFS operations staff in Dubai were able to track down the wreath at the Dubai Airport. We approached Emirates Airlines for assistance, and quickly tracked the wreath to a local hotel in Dubai, Adam Worth, Sales & Operations Manager of DFS Middle East in Dubai says. We had the wreath transferred to Terminal 2 and uplifted on our cargo flight to Kandahar the very next day.

The wreath arrived in Kandahar on November 9th, in advance of the wreath-laying ceremony on November 11th.

It was great to be able to help them out, says Jeff. This ceremony meant an awful lot to current members and veterans of the Canadian Armed Forces.
