

## **DFS Middle East Launch DFS Cargo Track - Cargo Software System**

Dubai, UAE

DFS Middle East FZE has just launched our web based cargo operations management software DFS Cargo Track. DFS Cargo Track enables DFS to manage cargo and charters operations from end-to-end on-line, real time. The implementation of this software will improve efficiency, streamline operations and give customers the ability to track shipments via our web site [www.dfsmiddleeast.com](http://www.dfsmiddleeast.com).

DFS Cargo Track handles every aspect of the cargo process including;

- o Flight Scheduling and Capacity control
- o MAWB / HAWB Data entry
- o All Airwaybill documents
- o Post Flight and related operations
- o Airway bill stock management
- o Job costing and Invoicing
- o Cass billing (approved by CASS – UAE)
- o Online Track and Trace

To find out more about DFS Cargo Track or any of our cargo service contact [commercialcargo@dfsmiddleeast.com](mailto:commercialcargo@dfsmiddleeast.com) or visit our website [www.dfsmiddleeast.com](http://www.dfsmiddleeast.com)
