

DFS Launch Passenger Charter Service to Bagram

Dubai, UAE

Following the success of our passenger service to Kandahar, DFS Middle East are proud to announce a charter passenger service to Bagram, Afghanistan. Our weekly Bagram service departs from Dubai International Airport (UAE) every Thursday 08:00 (Local).

Passenger services have been a natural progression from our established cargo business and have proved an immediate success with our clients.

For your convenience the Bagram service offers a complimentary meal and beverage service during the flight.

Full meet and greet services are provided in both Dubai and Bagram by DFS staff.

We can also assist with visas for those who need them for the UAE and Afghanistan.

We have a procurement section that enables us to source, purchase and expedite items needed by our customers in a hurry or just to avoid the frustration of doing these themselves if required.

Press Release Ends
