

DFS Middle East assists with Phillipines' Typhoon Durian relief program

Dubai, UAE

DFS Middle East operated a charter flights last week on behalf of the US Agency for International Development to assist relief operations to the Phillipines in the wake of the devastation caused by Typhoon Durian.

From the initial approval to start mobilizing, we were loading the relief cargo onto the plane in three hours. "said Adam Worth, Sales & Operations manager for DFS Middle East FZE. Our client required the relief goods in Manila by 9 AM the next morning, so while time was not on our side, our team did a great job in pulling together everything we needed to make a successful on time arrival in Manila the following day.

DFS Middle East operates rapid response relief flights to clients around the globe, and has acquired extensive experience in providing innovative solutions to clients facing a wide variety of transportation challenges.
